A obra "A Luneta Mágica" de Joaquim Manuel de Macedo (1820 - 1882), mesmo autor do sucesso "A Moreninha", é considerado o primeiro romance fantasia da literatura brasileira.

A obra foge de tons piegas do romance e tem uma conotação maior de fábula com lição de moral. De forma crítica e bem humorada ele faz um retrato do Brasil no final do segundo império, mais precisamente da cidade do Rio de Janeiro.

Em a "Luneta Mágica", Joaquim Manuel discorre sobre o bem e o mal, e como ele faz parte das pessoas. A trama é contada por um narrador-personagem, Simplício, que sofre da chamada miopia física, que não permite que ele enxergue nada que vá além de duas polegadas, sendo quase cego, e sofre também de miopia moral, que faz com que ele não entenda as ideias alheias e a intenção das pessoas, considerado um parvo (inocente, bobo).
