Les sept siècles de présence musulmane en Espagne, de 711 à 1492, ont permis l'émergence d'une civilisation dont témoignent la mosquée de Cordoue, l'Alhambra de Grenade ou encore la pensée d'Averroès. Cet apport majeur à la culture de l'Islam médiéval, constitue aussi une étape décisive de l'histoire de l'Occident.

Sans toutefois mythifier une Andalousie conviviale, celle du califat, où les trois religions monothéistes auraient vécu en harmonie, l'auteur met en scène l'histoire précise de cette Andalousie arabe. Il en retrace les conflits et les réalisations culturelles, proposant ainsi une synthèse de nos connaissances sur la civilisation andalouse.
