Os objetivos dos almirantes do Brasil de constituir uma força naval de valor estratégico, capaz não apenas de proteger o litoral do país, ou defender suas plataformas de petróleo, mas também de garantir aos brasileiros a exploração mineral do leito marinho, em águas internacionais do Atlântico Sul, e de cooperar no combate à pirataria marítima na costa ocidental africana. O texto do experiente jornalista Roberto Lopes - autor de trabalhos reveladores sobre a indústria bélica brasileira e a Guerra das Malvinas - mostra os principais planos do "Cisne Branco" (ave que dá título ao hino da corporação) e também descreve situações constrangedoras pouco divulgadas pela mídia, como o porta-aviões comprado da França que não consegue navegar e a fragata que está sendo "canibalizada" para que outras do mesmo tipo possam operar.

Uma reportagem de referência, corajosa, informativa e questionadora.
