Named a Best Book of 2018 by the *Financial Times* and *Fortune*, this *New York Times* bestseller about the 1MDB scandal exposes how a "modern Gatsby" swindled over \$5 billion with the aid of Goldman Sachs in "the heist of the century" (Axios).

In 2009, with the dust yet to settle on the financial crisis, a mild-mannered Wharton grad set in motion a fraud of unprecedented gall and magnitude--one that would come to symbolize the next great threat to the global financial system. The scandal is known as 1MDB, and the man behind it, Jho Low, is a figure so preposterous he might seem made up.

"An epic tale of white-collar crime on a global scale" (*Publishers Weekly*, starred review), *Billion Dollar Whale* reveals how this young social climber pulled off one of the biggest heists in history. Over a half decade, Low siphoned billions from an investment fund--right under the nose of the global financial industry. Low used the money to finance

elections, purchase luxury real estate, throw champagne-drenched parties, and even to finance Hollywood films like *The Wolf of Wall Street*.

Federal agents who helped unravel Bernie Madoff's Ponzi scheme say the 1MDB affair will become the textbook case of financial fraud in the modern age--and its fallout is already being credited for taking down the prime minister of Malaysia. With his yacht and private jet reportedly seized by authorities and facing money-laundering charges in Malaysia, an Interpol red notice, and an ongoing U.S. Department of Justice Investigation, Low has become an international fugitive.

*Billion Dollar Whale* will join the ranks of *Liar's Poker*, *Den of Thieves*, and *Bad Blood* as a classic harrowing parable of the financial world, hubris, and greed.
