Les cloisons sur ossature sont largement utilisées pour la séparation des pièces, l'agencement, voire même la décoration. Hydrofuges, acoustiques, ignifugées... elles ont en plus l'avantage d'offrir des performances adaptées aux besoins.

Même si les cloisons à base de plaques de plâtre vont le plus souvent du sol au plafond, elles ne jouent jamais de rôle structurel. Leur vocation est de fractionner, compartimenter et distribuer les espaces intérieurs.
