The innovative works of the Post-Impressionist Paul Cézanne laid the foundations of a new and radically different form of art in the twentieth century. Challenging the conventional values of art in his time, Cézanne's insistence on personal expression and the integrity of the painting itself, regardless of subject matter, have since earned him universal praise among his fellow artists, with Matisse and Picasso calling him "the father of us all." Delphi's Masters of Art Series presents the world's first digital e-Art books, allowing digital readers to explore the works of great artists in comprehensive detail.
