Voici l'odyssée désenchantée d'un informaticien entre deux âges, jouant son rôle en observant les mouvements humains et les banalités qui s'échangent autour des machines à café. L'installation d'un progiciel en province lui permettra d'étendre le champ de ses observations, d'anéantir les dernières illusions d'un collègue - obsédé malchanceux - et d'élaborer une théorie complète du libéralisme, qu'il soit économique ou sexuel.
