L'inventeur de la psychanalyse, Sigmund Freud, nous a appris que l'homme est fondamentalement la proie de son enfance. Tout ce que la psychanalyse a dévoilé trouve son sens dans cette investigation têtue, interminable, terrible autant que banale, de notre préhistoire. De cette obsession des origines est née une nouvelle mythologie.

Grâce à une approche à la fois biographique et théorique, cet ouvrage se propose d'explorer le parcours mystérieux de l'inventeur d'une science et d'une thérapie qui, depuis plus d'un siècle, a investi la culture au point que son langage est devenu le nôtre.

FREUD

Roland Jaccard
