Nas oito séries paradigmáticas que Georges Didi-Huberman propõe, tem lugar a baixa materialidade, a poeira, a figuração diáfana da cor, a palidez associada às formas do antigo, o virtuosismo do trompe l'œil, a aparição crepuscular, o reino do sonho e dos fantasmas e, ainda, o assombramento temporal que sobrevive nas formas emotivas do moderno e da contemporaneidade. A partir da experiência artística da grisalha, da diversidade dos seus materiais e da suas expressões, remonta-se à dimensão sensível e temporal que constitui o âmago das suas próprias transformações.
