De Romulus, fondateur légendaire de Rome en 753 avant J.-C., à Romulus Augustule, dernier empereur romain d'Occident renversé en 476, du Mur d'Hadrien en Bretagne aux routes caravanières de l'Euphrate, le monde romain antique est une période historique de longue durée et qui s'étend sur un immense espace. Cet ouvrage présente les institutions politiques successives du monde romain, analyse les moyens, les enjeux et les conséquences de l'impérialisme romain et expose les grands traits de la civilisation romaine. Un glossaire, des tableaux et des cartes doivent aider le lecteur dans cette première approche du monde romain.
