The word occultism is used in the Alice Bailey books with one specific meaning: The study of that which is hidden. In occult meditation we learn to penetrate into hitherto veiled dimensions of consciousness, discovering the threefold function of the mind and the qualities of the true inner self, the soul. This type of meditation is particularly concerned with energy flow - energy which is impersonal and fiery in nature. Its potential dangers should therefore be understood and avoided, and practices adopted which are safe and trustworthy. This book sets out the basic principles of occult meditation, showing its overall objective to be planetary service.
