This book will assist you with overcoming an ineffective prayer life. To be truly effective, prayer must be specific. Generalizations in prayer are usually because the petitioner is not certain of what the will of God is in that area or uncertain because no real thought has been given to the request. In some cases it is because the petitioner is double-minded wavering back and forth.

Prayer is a life support system that God has installed in us and has programmed in His method of operation to sustain us in our walk of faith.

Faith is a key element to answered prayer. The scripture plainly declares that without faith it is impossible to please God. Prayer in faith eradicates doubt and worry about what God has promised.
