With the advent of responsive techniques, design patterns and off-the-shelf components, responsive Web design has become more than a technique &mdash; but rather a new mindset that requires us all to rethink and extend our practices. Responsive design is also about performance, server-side components, content strategy and conditional loading.

With this eBook, you will learn how to go from non-responsive layouts to optimized responsive mobile experiences. We're happy to present techniques to help you overcome outdated practices and set new defaults in your workflow &mdash; a new responsive design workflow.
