Who's going to provide for your future? There's a crisis looming in pensions. Investing in property is time-consuming and risky. Savings accounts yield very little return. If you're not careful, you could be looking at a very uncomfortable retirement. But surely the alternative - investing in the stock market - is risky, complicated and best left to the professionals?

Phil Town doesn't think so. He made a fortune, and in Rule #1 he'll show you how he did it.

Rule #1:

- Sets out the five key numbers that really count when you're buying stocks and shares
- Explains how to use new Internet tools to simplify research
- Shows how to exploit the advantages of being an individual investor
- Demonstrates how to pay fifty pence for every pound's worth of business

This simple and straightforward method will guide you to 15% or better annual returns - in only 15 minutes a week. It's money in the bank!
