"Sanskrit "संस्कृत" is "the cultured language" has by definition always been a "sacred" and "sophisticated" language, used for religious and learned discourse in ancient India. Sanskrit sounds are beautifully arranged sound harmonies... Making Sanskrit maximally pleasurable to listen to.."

Most of the Yogasans in ancient texts have been written down in Sanskrit, later it has been translated in local Indian language (Hindi) and now it has been translated in English and many other languages. In this process of translation the actual meaning and the purpose of the Yogasans have been lost and nearly disappeared.

The purpose of this book is not to teach you a language but to teach you the correct pronunciation of words used in Yoga and its related philosophy."
