In this uniquely fascinating book, Sandra Anne Taylor reveals how the Universal Laws—and even quantum physics—actually direct the course of your relationship destiny. Energy is the center of all life, and your energy is the center of all that you attract. You project this energy ahead of you in time and space, magnetically determining whom you will meet, as well as what the dynamics of any particular relationship will be like. In Secrets of Attraction, you'll discover what makes up your personal energy field, how you broadcast it, and why it has much more impact on your relationships than your looks, intellect, or financial status. No matter what you've been through in the past, you do have the power to change your relationship energy and manifest the intimacy, reciprocity, and true love that has been eluding you for so long!
