**Martin Lindstrom, a modern-day Sherlock Holmes, harnesses the power of "small data" in his quest to discover the next big thing**

Hired by the world's leading brands to find out what makes their customers tick, Martin Lindstrom spends 300 nights a year in strangers' homes, carefully observing every detail in order to uncover their hidden desires, and, ultimately, the clues to a multi-million dollar product.

Lindstrom connects the dots in this globetrotting narrative that will enthrall enterprising marketers, as well as anyone with a curiosity about the endless variations of human behavior. You'll learn...

- How a noise reduction headset at 35,000 feet led to the creation of Pepsi's new trademarked signature sound.
- How a worn down sneaker discovered in the home of an 11-year-old German boy led to LEGO's incredible turnaround.
- How a magnet found on a fridge in Siberia resulted in a U.S.

supermarket revolution.

- How a toy stuffed bear in a girl's bedroom helped revolutionize a fashion retailer's 1,000 stores in 20 different countries.
- How an ordinary bracelet helped Jenny Craig increase customer loyalty by 159% in less than a year.
- How the ergonomic layout of a car dashboard led to the redesign of the Roomba vacuum.
