From Stephen R. Covey comes a profound, compelling, and groundbreaking book of next-level thinking that gives a clear way to finally tap the limitless value-creation promise of the “Knowledge Worker Age.”

In the more than twenty-five years since its publication, the classic *The 7 Habits of Highly Effective People* has become an international phenomenon with more than twenty-five million copies sold. Tens of millions of people in business, government, schools, and families, and, most importantly, as individuals, have dramatically improved their lives and organizations by applying the principles of Stephen R. Covey’s classic book. The world, however, is a vastly changed place. Being effective as individuals and organizations is no longer merely an option—survival in today’s world requires it. But in order to thrive, innovate, excel, and lead in what Covey calls the “New Knowledge Worker Age,” we must build on and

move beyond effectiveness. The call of this new era in human history is for greatness; it’s for fulfillment, passionate execution, and significant contribution.

Accessing the higher levels of human genius and motivation in today’s new reality requires a change in thinking: a new mindset, a new skill-set, a new tool-set—in short, a whole new habit. The crucial challenge of our world today is this: to find our voice and inspire others to find theirs. It is what Covey calls the *8th Habit*. So many people feel frustrated, discouraged, unappreciated, and undervalued—with little or no sense of voice or unique contribution. *The 8th Habit* is the answer to the soul’s yearning for greatness, the organization’s imperative for significance and superior results, and humanity’s search for its “voice.”

Covey’s new book will transform the way we think about ourselves, our purpose in life, our organizations, and about humankind. Just as *The 7 Habits of Highly Effective People* helped us focus on effectiveness, *The 8th Habit* shows us the way to greatness.
