Presents an in-depth look at children who have experienced the near-death phenomenon and the heightened abilities that these children exhibit

- Provides compelling evidence for the existence of a generation of children who represent the spiritual evolution of the human race
- Includes firsthand testimonies of children who have returned from near death

*The New Children and Near-Death Experiences* is the first book to provide--from the view of the child--an in-depth study of children who have experienced the near-death phenomenon and its aftereffects. Atwater notes that the child who returns from a near-death experience is not the same child as before, but is a "remodeled, rewired, reconfigured, refined version of the original." Presenting data to support her contention that these children have experienced structural, chemical, and

functional changes in the brain, she also shows how their greater empathic abilities as well as dramatically higher intelligence are qualities that are also present in children born since 1982--enhanced abilities that cannot be tied to simple genetics. Atwater shows that understanding the near-death experiences of children can help us prepare for a quantum leap in the evolution of humanity.
